### Ergebnisse Lehrveranstaltungsbeurteilung

Sehr geehrte Damen und Herren,

im Anhang finden Sie die Ergebnisse Ihrer Lehrveranstaltungsbeurteilung aus dem aktuellen Semester.

Die Bewertungsbögen zielen auf eine Selbsteinschätzung der Studierenden zu unterschiedlichen Kompetenzbereichen, die jeweils in Frageblöcken abgebildet werden. Die im Einzelnen genannten Anforderungen und Lernziele treffen aber nicht notwendigerweise alle auch auf Ihre Lehrveranstaltung zu. Maßgeblich sind in diesem Zusammenhang die in den Modulbeschreibungen niedergelegten kompetenzorientierten Lernziele.

Zusammenfassende Indikatoren-Wertungen werden nur für solche Fragegruppen ausgewiesen, die für alle Lehrveranstaltungen trotz unterschiedlicher Anforderungen und Lernziele zutreffen.

Neben der grafischen Darstellung aller Einzelergebnisse gibt es einen Überblick über die Bewertungsergebnisse in Form sogenannter Profillinien. Dabei werden die jeweils einer Fragegruppe zugehörigen Frageaspekte basierend auf dem arithmetischen Mittelwert im Zusammenhang dargestellt.

Von den Mittelwertangaben (mw) zur Workload muss für den korrekten Wert systembedingt eine Stunde abgezogen werden. Am Ende der Ergebnisübersicht finden Sie ggf. eingescannte handschriftliche Anmerkungen.

Darüber hinaus steht Ihnen das Kompetenzteam Hochschuldidaktik zur Verfügung, um mit Ihnen Evaluationsergebnisse zu interpretieren, Feedbacks Ihrer Studierenden zu reflektieren oder Lehrideen zu vertiefen sowie anderes mehr. Sie erreichen das Team per Mail ([hochschuldidaktik@th-koeln.de](mailto:hochschuldidaktik@th-koeln.de)) oder telefonisch (unter 8275 – 3820).

Mit freundlichen Grüßen

Im Auftrag

Michael Rüdel

## Survey Results

### Legend

Question text

## Course environment

The learning objectives of this course were outlined at the beginning.

I am aware of the significance of this course for my degree program.

The content of each individual teaching unit is well structured and easily understandable.

The exam requirements were clearly stated.

I have access to learning resources (scripts, slides, e-learning applications, etc.) for course preparation and follow-up work.

I have the prerequisite knowledge to adequately follow or actively participate in the course.

**The lecturer**

is - in my opinion - very interested in promoting his/ her students' learning achievements.

supports my learning process by the pedagogical design of the course.

is - in my opinion - open to questions and suggestions.

provides useful feedback on my learning progress independent of exam.

**Workload**

How much time a week do you on average spend for the preparation / follow-up work for this course?

Compared with similar courses, the workload for this course is

All in all, I find the workload for this course appropriate.

**Please answer the following questions as they apply to your development during this course only. Subject-related and methodological skills**

I have learned a lot in this course so far.

I have improved my working practices (research, documentation of results, etc.) during this course.

I am able to outline important terms and facts related to the topics discussed.

I am able to summarize the topics discussed so far and can illustrate difficult issues.

I am able to apply subject-related content and methods to practical problems.

I am able to independently analyze and assess subject-related problems.

I have developed my own ideas on how to further advance known topics.

**Academic interest / self-competence**

The course has awakened respectively strengthened my interest in the topic.

I deal regularly with the topic of the course.

I have some ideas on how to independently gain more in-depth knowledge of the topic.

This course has boosted my motivation for my further studies.

**Personal information / comments**

Which semester of your program are you enrolled in?

Please state your gender:

Thank you for your feedback!

# Comments Report

## Personal information / comments

What would have helped you learn more, or more efficiently, in this course?  
(Handwritten comments will be passed on to the lecturer. We therefore cannot guarantee their anonymity!)

Very nice ~

- ① More time on the topics and no overlapping of assignments with other assignments from other lectures.
- ② Self-paced and individual assignments

• more examples using R about Random Forest to endorse a better understanding of the topic.

The way of lecturing and assignments.

## CLARITY OF QUESTIONS IN EXERCISES

Which aspects of the course did you particularly like?

(Handwritten comments will be passed on to the lecturer. We therefore cannot guarantee their anonymity!)

Have lot of freedom to do experiments, learn new things.

Hand on practice is fun and learn a lot.

- ① Assignments that were deeply dealing with the topics seen in class
  - ② Clear and up-to dated material
  - ③ Professor Way of teaching ~~and~~ ~~presentation~~
- the analyzing and better understanding of data using Random forest
  - R software.
  - Rattle

We use everything learned in practical aspects . . .

The structure and availability of materials.

THE DISCUSSIONS DURING PRESENTATION
